So which collection is best for your day?

On the next page, I give some context for some of the benefits of each package! We can chat through more details on our initial call, but this is just to get you thinking about what might be best for you :)

You can always add on a-la-carte items to a package, and if none of these look quite right, we can always build something custom for your perfect day.

THE BEST DAY

This is the "everything you need" package. It gives you 2 photographers to get the BEST photos! Multiple angles of your most important moments, and coverage of things that are going on at the same time that I couldn't get on my own. It also includes an engagement session which is so important to your experience, so you're 100% comfortable on your day! Plus some fun extras AND longer cloud storage so you can easily access your photos anytime!

\$5,200

THE PERFECT

Perfect for most wedding days! This package includes 1 photographer for 8 hours which works great for 99% of timelines. Most of the time this allows for some getting ready photos all the way through fun dancing at the reception and sunset photos!

\$4,500

THE SWEETEST

Best for micro-weddings or reception celebrations! This gives you coverage for possibly a quick getting ready photo (staged), family photos, some couples photos, and reception depending on what your timeline looks like!
